THE DUCTLESS GLANDS ARE THE BATTERIES OF LIFE.

PREFACE.

It has recently been discovered by biologists that when a particular organ in the Human Body ceases to function correctly, its normality can be restored by administering to the patient the Endocrine Extract of the Similar Organs of Animal origin.

The Therapeutic utilization of the Fresh Glands removed from Healthy animals such as Bullock, Ram, Goat, Monkey, Ox, Sheep, etc., is a step forward in Medical Science and is the result of prolonged and painstaking investigation.

The following prescriptions are the very latest methods of combating Diseases, Old Age and Faults of Face and Figure, and follow the lines of research of eminent Endocrinologists and Organo-therapists abroad, including some of the world's most famous Physicians, Clinicians, and successful Rejuvenation Specialists in Europe.

These treatments are the latest methods of medication and the logical outcome of the work of such savants as **Voronoff, Metchnikoff, Steinach**, etc., and produce results closely resembling those of transplantation of various glands, notably those of the Anthropoid Ape, upon man.

The prescriptions are most accurately dispensed **freshly** to every order and possess the highest degree of curative action, with prompt cessation of all distressing sensations. Taken over a reasonable period, their effect is progressive and accumulative, and the results permanent.

The fundamental principle underlying the above research work is that the administration of concentrated extracts of fresh glands obtained from healthy animals, notably the Ox, Sheep, Goat, Ram, Bullock, etc., by veterinary surgeons under the most hygienic and scientific conditions counteract deficiency in secretion of the ductless glands in human beings.

Many of the most intractable ailments and diseases are now cured by these gland extracts in Biological Institutions and Laboratories abroad in an entirely harmless manner and without danger of any kind.

The substances separated from the embryonic tissues of the various animal glands, stimulate the corresponding human organ to maintain the balance of secretion necessary to maintain normal healthy action.

Modern Science attributes the ill-health of any particular organ to a break in the hormone balance. These hormones are chemical messengers secreted by the ductless or endocrine glands and distilled into the blood stream.

Complete cures are claimed by these prescriptions.

THE PRESCRIPTIONS ARE DISPENSED IN FORMS WHICH BEAR THE ADVANTAGE OF BEING SWALLOWED QUITE EASILY AND ABSORBED INTO THE SYSTEM WITHOUT OPERATION OR RECOURSE TO THE HYPODERMIC SYRINGE.

The following is a list of some of the glands and gland substances involved in these prescriptions, in most cases skilfully compounded with one another, and in some cases with such natural proteinic substances as **Red Bone Marrow, Chlorophyll, Organic Phosphorus, Haemoglobin, Lecithin, Peptone, Liver Extract, Vitamins, etc.**

Pineal	Adrenal	Ochitic	Stomach Substance
Pituitary	Spleen	Suprarenal	Prostrate (dessicated)
Thyroid	Gonads	Corpus Luteum	Ovarian
Para Thyroid	Testes	Cerebrin	Brain and Spinal Cord
Thymus	Mammary	Myelin	Lymphatic, etc., etc.

These prescriptions bear the added advantage of **being permitted to be taken with one another**, for instance, if Bladder Trouble is being treated with the Prescription No. 143, and symptoms of Rheumatism were present, the Prescription No. 131 could be taken at the same time.

The preparations listed are the outcome of the work of Distinguished Continental and Foreign Physicians and are held in great esteem in all countries. Each is the product of a life-time of specialisation in the particular subject and can be absolutely relied upon to aid the afflictions specified, and to be absolutely harmless in every way.

Most of the EXTERNAL preparations which follow are made with the Expressed Juices of living plants and flowers exposed to the Ultra Violet rays of sunlight, hence transformed into material stored with vital energy, the value of which has been convincingly confirmed by distinguished scientists and physicians the world over.

This subject has been given years of study and experiment, and as a result these preparations of sunshine saturated extracts which are absolutely wonderful in their results, have been perfected. Those living sun-drenched juices are a therapeutic agent possessing endless

possibilities and compounded correctly in the right proportions enable every man and woman to attain natural and youthful perfection.

No **indication** is given on the labels of these preparations of the use to which they are to be put. The directions are always sent separately ; so that the bottles, jars, etc., may be quite safely left on the dressing table. **INSTRUCTIONS SUPPLIED IN ENGLISH, WITH THE NECESSARY DIRECTIONS FOR DIET, EXERCISE AND MANNER OF LIVING WHERE INDICATED.**

Free advice is given by personal letter when requested. The Chief Chemist is always glad to give careful personal attention to each case without fee or obligation, and to advise treatments or prescriptions by the most important **SPECIALISTS IN THE WORLD.**

External Rejuvenating Recipes, like food, go stale if left too long. There need be no doubt of the freshness of everything from this Laboratory ; all preparations are made freshly to every order. Conscientious care ensures the purity of every compound, giving the high qualities of the most costly toilettries yet at a price most moderate.

in combination with

in the Colloidal Condition, and the Animal Glandular Extracts of
BRAIN, HEART, LUNG, SPINAL CORD and TESTES.

With Active Vitamins.

PRESCRIPTION No. 120.

Scientific investigation has shown that the achievement of longevity together with the full enjoyment of mental and physical activity and the whole problem of staying young, or wooing back youth once it is lost, is a problem of the endocrine glands of the body. The symptoms of old age suggest that the body slowly loses some vital substance which controls the hormone-producing glands and in order to establish a proper balance, the body needs some easily administered common gland factor. Youth lasts as long as the glandular system is properly nourished and stimulated.

Old age, with its manifested symptoms of loss of life force, inactivity and general sluggishness, is not a wearing-out process, but a cessation of glandular activity, and is therefore both preventible and curable. Every man and woman now has the chance of becoming a centenarian. German biologists approach the problem of increasing the length of life with this prescription, which stimulates the glands to do their work and increases the body resistance to disease and old age, and is a means of physical regeneration, rejuvenation and revitalisation, giving the light and elastic step of youth. The system is rebuilt with the vital elements necessary for the production and prolongation of Life, Health and Energy, and the glands kept active and alive throughout life. Many patients who used to walk with a tottering step now have the firm step and upright carriage of men and women 20 years younger, their blood circulation having been stimulated, cell functioning increased, furnishing the body with the natural power of disease resistance, The cable of nerves which constitutes the spinal cord is directly stimulated. These Polyglandular Extracts are freshly dispensed in the form of tiny *Tabletæ* or *Capsulæ*, quite easily swallowed or

dissolved in any cold beverage. Correctly compounded under expert supervision, this formula contains the essentials to the maintenance in a youthful condition of the ductless glands; the main springs of all life, vitality, health and personality.

For nourishing the skin and filling the hollows which time and care bequeath to many women and resisting the ravages of age, this prescription has no equal, making the most care-worn look and feel years younger. A course of nine weeks' treatment is advised to secure the best results. Three courses of three weeks each should be taken. One week interval between the first and second course. Two weeks interval between second and third. Afterwards a three week's course may be taken, when and as desired. This method has given the best results, the glandular extracts beginning their good work immediately and improvement observed at once, the treatment being continued for the period stated to get permanent results.

"MAN IS AS OLD AS HIS GLANDS."

Perfectly safe. Wonderful results. This prescription ensures growing and greater vigour, virility and happiness as the years pass. It has been used with great success abroad in giving youth to those over 40 constitutionally sound, but with existing nervous and physical exhaustion and disability; in many cases restoring normal health and strength, and taking a good ten years off apparent age. These Endocrines and Colloids are the answer to that persistent question: "I do not feel old, but my body will not do the work my brain feels capable of asking it to do. How can I renovate my body to act in concert with my brain?" Perfectly harmless, but extremely efficient. Especially successful in premature senility, where symptoms such as Arthritis, Neuritis, Rheumatism, Neurasthenia, Blood Pressure, etc., arise. Useful where the debility is associated with weakness of the Heart, Chest or Lungs. Indicated where debility is associated with symptoms of deterioration of the Gastric and Alimentary Tracts. Highly successful in Severe General Debility and Life Decline.

Continued sufficiency of essential mineral matters such as Iodine Phosphorus, Iron, etc., is essential to the maintenance in a youthful condition of the ductless glands. Very minute proportions of others such as Gold, Platinum, Palladium, etc., in their most potent and finest ultra-microscopical forms and colloidal dispersions are now known to play essential parts as catalysts in metabolism and the functional activity of cell tissues and glands.

The maintenance of health and causation of disease are functions of the supply and condition of the Inorganic Elements in the Molecular

(and therefore most active of all) condition. Thus if the supply of Hormone (fluid chemical messenger or solution of the requisite elements in the colloidal state) is not despatched by any one gland to the organ awaiting that supply, that Organ deteriorates and eventually ceases to function, and eventually every other Organ and Gland in the body fails. Life is a function of the catalytic action (or stepping-up properties) of Colloidal Molecules of the Inorganic Elements upon the fluids impinging on them during passage of soluble substances brought by the Blood Stream, the nutritive and other substances being carried away by the circulation to other organs.

In nature's laboratory, sunlight, moonlight and starlight, transmute the elements of earth into leaves, flowers, roots, tubers, seeds and fruits, gently, rhythmically, and at low temperature, as compared with the modern laboratory of man, where chemicals and drugs are produced by great heat, force and speed, and therefore no artificially made drugs or mineral medicine can compare with the natural medicine of nature or elements in the organic or vegetable condition.

Reblach Polyglands and Elemental Catalysts restore waning vitality the organs of the body are stimulated to function more vigorously, and soon health and happiness radiate throughout the system; lack of bodily energy disappears; weary eyes become bright; muscles regain their flexibility; the stoop of old age gives place to a more straightened back and the brain becomes increasingly active. The things that irritate give place to a more reasoned aspect, actions quicken, nervous depression disappears, and life takes on a new and firm purpose. By re-activating the cells, the balance between wastage and the new production lengthens life. It increases appetite, builds up, strengthens, and aids digestion. Because of its invigorating, strengthening and general tonic properties, the whole system is so built up that chills and catarrhal affections are easily repelled.

This Wonder-Gland Tonic fans the flame of life.

Price: Three weeks' Treatment, 5/6. Nine weeks' Treatment, 14/6.

The *Tablettæ* or *Capsulæ* may be taken with any other of the gland prescriptions. For instance, if Rheumatism is present, Gland preparation No. 131 may be taken in conjunction.

Plain label. (**German Research**) **Prescription No. 120.** See also pamphlet entitled "Réjuvenation" (Sexual) for further treatments.

Reduces embarrassing fulness of the chest and remoulds the form, adding the charm of lovely curves which is so attractive and necessary in women. If one wishes to improve one's personal appearance, and to get rid of unwanted flesh, this gland prescription will dissolve the excess fat and develop the seductive graceful slender body of youth. The treatment is extremely simple. Take one tiny dose regularly three times a day between meals, and the results will astonish.

Obesity is a function of certain Endocrine Glands. If these glands did their work efficiently, the body would be neither too fat nor too thin. "Don Ferando" Prescription counteracts any predisposition of these ductless organs to form adipose tissue, reduces the unhealthy fat and weight. These extracts from healthy animals taken over a short period

have produced amazing results ; in some cases a loss of 14 lbs. in three weeks, without harm, bagging and sagging.

Whether the fatness is local, such as double chin, thick ankles, hips, etc., or general to the whole body, these Capsulæ are equally efficacious. Not only are the external layers of adipose tissue dissolved away, but also the internal accumulations which stifle the digestive organs and impede the heart. As the superfluous and clinging rolls of fat fall away, activity is restored. Once returned to normal, these extracts check the tendency to put on fat. Body-girth and "too-full figure" can be abolished safely and easily without dieting, fatiguing exercises, or injurious drugs. When disfiguring fat and over-weight swell the tissues the vital organs are weakened, fatty heart and palpitations arise and stomach weakness develops by reason of protruding abdomen. The reducing properties of the medicaments has never yet failed to bring back to normal slimness, even the worst cases. The fatty tissue is dispersed quickly and easily. These fresh extracts of the animal glands form a scientific fat solvent and produce the slim graceful figure, stimulate the Iodine producing organs and revitalize the cells responsible for converting fatty tissue into waste matter. The latter is eliminated from the body and weight is steadily reduced. Ferando Glands supply the missing factor, the lack of which permits too much food to form fat, yet enables the patient to eat almost anything.

Two evils threaten a woman in middle age, she becomes either thin and scraggy, or she puts on flesh rapidly. Obesity is an affliction quite easily remedied with these Ferando Fat Removing Glands, which take inches off the bulging plumpness of the chest line, slim the breasts and reduce the bust.

The rapid reduction and dispersal of redundant fat gives an ample decrease waist, stomach and dorsal fat ; over-fat legs and hips are slimmed, and loins become freer ; upper back and neck are moulded to a svelte outline.

The natural and safe way to regain a youthful slim figure is to stimulate the iodine producing organs which activate the cells responsible for the destruction and combustion of fatty tissue into waste matter which is then eliminated from the body. The action of these Extracts is intensified by the use of the Slimbel Tablets, Prescription No. 310, below, which supplement the action of the internal treatment.

Freshly dispensed. Easily swallowed or dissolved in any beverage. Price: 4 weeks' course 5/6 ; 8 weeks' course, 9/-. Plain Label. **Prescription No. 145.** (South American Research.)

REJUVENATION OF THE SKIN.

Complexion-Beauty by Internal Treatment.

Skin-Health and Beauty from within,
and banishment of SKIN AILMENTS.

Due to Impoverished Blood, such as Eczema, Boils, Acne, Carbuncles, Styes, Skin Blemishes, Tumours, Erysipelas, Freckles, Chilblains, etc.

"REVENFEST" BRAND COMPOUND GLANDS.

PRESCRIPTION No. 129.

This prescription is a beautifier for the skin. The Complexion is smoothed and whitened with rapidity, the hormones causing the upper epidermis to be shed, leaving the under skin clear and beautiful in its smooth transparency, healthy and glowing. No amount of cosmetics can give attraction if the skin and glands are not in healthy

condition. These are fed by the blood stream and the complexion restored from within. The enriched blood improves the complexion and gives an added glow of health.

These Gland Extracts give improvement in the whole appearance. The face, instead of being flabby and covered with wrinkles, becomes smooth and firm, the skin soft and supple. They completely remove all the impurities that mar the natural beauty of the complexion and are very markedly and quickly effective in dispelling Blackheads, Blemishes, Greasy Skin Troubles, Acne, Pimples, Redness and Sallow-ness, Freckles, etc. The Cheeks assume a soft bloom, and radiant youthful charm and loveliness are achieved, the lips become soft and fresh, the skin utterly fresh, clean fine-grained and glowing with life. If robust health is to be enjoyed a good blood supply is absolutely essential. This Internal Gland Treatment is the most efficacious method of enriching the blood stream and corpuscle content, banishing all skin affections, and is a safe and certain cure for all irritations and diseases, etc.

The unsightly blemish of chilblains on fingers and toes is overcome by the strengthening of the cells by calcium absorption. Revenfest Mixed Glands correct the state of the blood and defective circulation, giving a new, clear skin that functions naturally and healthily.

The normal healthy skin is protected by an almost imperceptible film of a fatty substance, subdivided by minute glands on the surface. This film keeps the surface slightly moist, preventing the outer skin layer from becoming dry and rough, and preventing wrinkling, lines, etc. Revenfest Glands supplement the deficiency of secretion and tone up the tissues from within outwards and ward off the marks of age. "Revenfest" carries its tonic properties to the under skin, refreshing and invigorating the skin cells.

As time passes the skin falls a victim to age, it slowly desiccates and hardens, and loses its activity. It becomes dry and discoloured, wrinkles, and crowsfeet appear, furrows and forehead creases arise, the complexion loses firmness, flabby cheeks and double chins develop. The nutrition of the skin is impaired, and the skin feels cold and dry and loses its capacity of renewal. By cell depletion, fat disappears from beneath, resulting in looseness and flabbiness.

This internal treatment revives the ageing skin from within, nutriment is introduced to the living skin by internal medication, and stimulates the deficient power of repair, the skin is built up anew from below upwards, thin and withered skin smoothed into the flawless youthful condition of health and loveliness. The flabby tissues are made tense again, lines, creases, wrinkles and crowsfeet are dispelled,

the pigmented shrunken, discoloured, yellowish, grey, complexion of the ageing skin is replaced by the fresh, clear and soft colour of youth.

Natural absorption and disappearance of impurities of face and body such as freckles, pimples and rashes are caused, the skin tightens, removing hollows and creases in the neck. Revenfest counteracts the symptoms of decay which attend advancing age.

What makes the young skin beautiful is the efficient quality of the blood supply to the epidermal glands which replace every worn cell by a new one. With age, the continuous renewal of the skin from within gradually ceases and the skin becomes aged and withered.

These Revenfest Internal Glands regenerate, revitalize and rejuvenate the growth of the skin tissues from within, leaving the surface smooth, fine, rich and active ; with a tissue clear, fresh and youthful.

Beauty cannot well be applied. Impurities that are concealed are not eradicated. Unless the skin is first cleansed internally, no lasting beauty can possibly result.

Of high therapeutic standard, these extracts stimulate the circulation while improving nutrition and the tone of the tissues, increase the elasticity of the skin and muscles, cultivate natural beauty and bring back youth and bloom. A natural healthy, diffused, and gentle glow and delicacy of colouring is brought to the thin outer transparent membrane by natural internal renovation and dermatological and biological organic reconstruction. The blood supply to the cutaneous tissues is regenerated and rejuvenated, rebuilding new cells by cell division, bringing peachlike cheeks and clear velvetness to a dull lifeless complexion, making the skin as lovely to look upon in the forties as it was in the twenties.

By the 24th year the ageing process of the skin has already begun ; it gradually begins to dry, becomes cloudy, jaded, of poor coarse texture, muddy, pale, dull and defective. This glandular stimulator of the skin's activities, revives dried-out skin, re-creates a clear and healthy complexion, elastic, soft and clearer in hue, and brings more colour to the cheeks ; pupils of the eye get brighter and the iris less cloudy.

The uppermost lifeless cells are thrown off, giving a fine healthy rosy tint, clear, radiant undertone, flawless, satiny new surface, and pearly translucent delicacy to blotchy unhealthy bad complexion in youth or later life.

The underlying tissues are benefited, giving a skin which looks like milk and roses under a brilliant light, and restoring the delicate peachlike bloom of youth to an unsightly skin, lacking lustre. A deficient

blood stream manifests itself in the epidermis of the body, which must be refined and supplemented.

The skin has latent beauty, youthful skin-bloom can be recaptured ; it can be daily seen developing and rejuvenating while you are taking "Revenfest" Compound Gland Extracts.

Freshly dispensed in tiny tasteless *Tablettæ* or *Capsulæ*, easily swallowed or dissolved in any cold beverage. Price : 4 weeks' course 8/- ; 8 weeks 14/-. Plain Label. Instructions in English separately.
